# Precision

- DLH and Hskpg both have 1s precision about 0.4 %

Data:

- Hskping: seac4rs-dc8hskping_dc8_########_r0.ict (######## = daily files from 20130806 – 20130923)
- DLH: SEAC4RS-DLH_DC8_########_R1.ict (######## = daily files from 20130806 – 20130923)

Precision for 1 second data:

- Standard deviations were calculated for 5, 10, and 20 seconds.
- Only bins containing at least 70% of data used in the analysis.
- Precisions are estimated at approximately 0.4% for both DLH and Hskpg data.
